DASHAVANTH KODIHALLI

SOFTWARE ENGINEER

CAREER OBJECTIVE

A CREATIVE AND DETAILED INDIVIDUAL WITH ABILITY TO DEVELOP EFFECTIVE AND EFFICIENT SOLUTIONS WITH ZERO TOLERANCE FOR ERRORS.
LOOKING TO JOIN A PROGRESSIVE TECH COMPANY WHERE MY TECHNICAL SKILLS WILL BE FULLY HARNESSED.

PROFESSIONAL SUMMARY

I'm an experienced developer with a solid background in .net development stages, from initial analysis through design and execution.
I'm proficient in a asp.net/core. In addition to my technical skills, I'm a great communicator and collaborator. Ability to communicate well enables me to collaborate effectively with clients to identify objectives and requirements for applications.

EMPLOYMENT

2017 – PRESENT — **SENIOR ASSOCIATE CONSULTANT** – **NTT DATA**

ROLE — **C# .NET / CORE DEVELOPER**
+ Co-ordinated in Initial Design, Estimations for new modules.
+ Took ownership of 3-4 modules dev-ops cycle (designing to deployment).
+ Working with the business users to understand the requirements and get the clarifications done.
+ Providing technical support to the team members and coordinating with the onshore business team understand the requirements.

PROJECTS — **APPLICATION PORTFOLIO ANALYZER –** Analytics, Survey
+ Highly configurable custom tailored for enterprise (client) specific module.
+ Integrable into pool of other applications to draw insights of how the portfolio of application performing.
+ Constantly monitors application portfolio health through analytics that measure cost, risk and value.
+ Used Kendo UI for data collection and reporting/ analytics at frontend

INCIDENT NAVIGATOR - Analytics
+ Tool that can automatically identify repeated incidents and facilitate effective Problem Management
+ Uses configurable, natural language-based constructs to recognize key words in unstructured data, this automates clustering of common ticket types, resulting in actionable.
+ Worked on Telerik Adhoc reporting, implemented the report saving functionality in Web Forms.

AUTOMATED PPT GERNERATION
+ Tool that can automatically generate the reports out of the loaded data based on chosen time, helps account team efficiency by reducing the mundane tasks of creating PPT.
+ Created with Telerik Reporting as self-hosted service, integrated as RESTful service with MVC application.

DATA MASKING UTILITY
+ Add-On tool to customers, highly configurable, lightweight tool to mask their sensitive information before they load data into our system.
+ Developed the console masking library to mask the data at the ETL process, also the desktop utility at client side before transferring the data. Using Win Forms and WPF.
